

# Paul Wojtkowski (Officer)

**2014-2015 President** - Paul S. Wojtkowski currently serves as President of Hope Through Education (H.T.E.). Paul originally joined H.T.E. general membership in 2003. He has subsequently held all 4 offices; first serving as Treasurer (2004), and later as Secretary, Vice President, and finally President (2010). The Board President is responsible for much more than facilitating the meetings of the board of directors. H.T.E. President becomes the public face of the organization, the contact person for every question anyone in the community may want to ask. He is the main advocate for everything our organization is trying to do, from attending early morning business breakfasts to arranging lines of credit, overseeing programming issues to facilitating board & community meetings. He also oversees the many events held throughout the busy calendar year.

"My goal during this term is to bring focused passion to the membership and officers, leading our non-profit organization from average to excellent". Paul continues to embrace and encourage the vision of self-sustaining projects. "I hope to see a good part of our team's effort spent in developing our membership with their many gifts, to become the servants that Jesus has called us to be, serving people in need all around us".

**Volunteer Background** - Paul came to the Lord in 1979 at Calvary Chapel Church, Costa Mesa CA. He has served in various church ministries such as prison, men's groups, church planting and foreign missions. He and his wife Angela currently attend Revival Church in Menifee. He has great passion for seeing lives changed both in hurting children & adults which makes him an excellent candidate for presidency. He feels an important bible verse for H.T.E. is found in Acts 20:35b ... " you must support the weak. And remember the words of the Lord Jesus, that He said, **'It is more blessed to give than to receive.'** "

**Professional Experience** - Paul comes from a electrical utility background having technical experience in Operations, Nuclear Maintenance and Procurement Engineering with almost 29 years with SCE. More recently he has joined Loma Linda University Medical Center (Murrieta campus) assisting in the facilities department as a Boiler Technician.

**Personal Activities** - Some of Paul's favorite hobbies lately include golf, and softball. He also actively enjoys fellowshiping with others, horseback riding, scrabble, classic films, hiking, and travel. Having a large family of kids & grandkids often keeps him busy along with running a new small business, Western Way Granola. His favorite H.T.E. event is probably hosting horse camps at his Hitch-n-post ranch in Menifee. He is one of the first original members of H.T.E. bringing a wealth of experience & wisdom to our organization.
